# Snow Leopard (*Uncia uncia*) Habitat

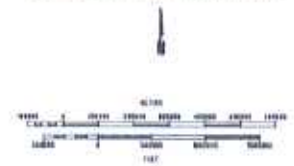

## Legend

- Good Snow Leopard Habitat (> 30 degree slope and outside human disturbance buffers)
- Fair Snow Leopard Habitat (unknown slope or <= 30 degree slope or inside human disturbance buffers)
- Existing Reserves

## Area Report

Total Potential Habitat .....	3,024,728 sq. km
Total Good Habitat .....	549,706 sq. km
Total Fair Habitat .....	2,475,022 sq. km
Total Protected Potential Habitat .....	181,547 sq. km
Percent of Potential Habitat Protected .....	6

Produced by the National Biological Service,  
 Midcontinent Ecological Science Center Development Team,  
 Ft. Collins, CO, in Cooperation With the International  
 Snow Leopard Trust, Seattle, WA.
